

DORMAN COOLERS

POWER STEERING, TRANSMISSION, & ENGINE OIL COOLERS.

Whether you're looking for a direct replacement for a corroded or damaged cooler, or an upgraded repair solution that the original equipment doesn't offer, Dorman has the product you need.

Our comprehensive line of precision-engineered coolers offers coverage for millions of repair opportunities on popular vehicles, and every cooler undergoes 240 hours of salt spray testing to ensure the durability customers expect. Want to go above and beyond what OE parts offer? Dorman® OE FIX™ designs feature exclusive upgraded features that offer better protection against damage that typically leads to the failure of factory coolers.

Repair professionals count on Dorman for fix-it-right quality and creative solutions others can't match, backed by over a century of automotive aftermarket excellence.

WHY CHOOSE DORMAN?

Comprehensive line - including power steering, transmission, engine oil, and diesel fuel coolers, as well as turbocharger air intercoolers.

Rigorously tested - every cooler is subjected to 240 hours of salt spray testing to ensure quality and durability.

Thoughtful, value-added features - like the application-specific O-rings required to disconnect and reconnect transmission lines, high quality constant-tension and ear clamps, Tier 1 gaskets, and related components needed to do the job right.
